Pull the curtains to a close,  
And the movie has just stopped.  
Music in the background,  
Smell of sweat crowding the room.

The walls keep moving,  
pushing us together,  
I hope my lies will come true,  
At least in the next hour,  
I'm so close to being sick right now

We do, we do, we did and I'm done,  
The after is too much, I won't let you stay.  
We do, we do, we did it, I'm done,  
The after is too much, I won't let you stay.

So now you'll see,  
I was taught.  
Yeah, I learnt this weapon,  
We all use the art. (x6)

So now you'll see.
