Shoot me into sleep
Your beauty is so close to me

And even better still, warm nights and the chill
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Deeper in the zone, 2-player combo mode
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Ejacquantumbreeze

And even better still, warm nights and the chill
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Deeper in the zone, 2-player combo mode
Creeping down my bones, reminds me I'm alone
My sweet midnight surprise, staple down my eyes
Stars I cannot see, take me galaxy

Ejacquantumbreeze! Even in the sea
Replace all meaning, 'I-spy'

Fuck, I think she just saw me, stop hiding in the sea
Shit, my midnight surprise has found out all my lines
Crunch time, night time, palm luxuries which I mistake
for life
Don't talk to me, stay away unless you want me near
you

I'm waiting in silence and cloaking my violence
You, almost encourage my happiness, but I know best
Wake up, smell the semen, this will never happen for
you
Evil waits inside your home and shakes you through
and through

Oh, wake up, princess

I guess, deep down, my heart is not as pure as it was
And my food is ruined, the freezer doorway to above
I'll fire in the sun, I'm dying just for fun

And what is left of this?
My fare is calling down for you all to go away, forget
the fall exists
I'll fire in the sun, I'm dying, just for fun

As I lay in bed, wrapped in cold sweat, just take me now
Shoot me into sleep
