Verse 1

Here I am broken and ruined
My failures catching up to me again
And I'm hopeless without your love
I need your forgiving a new beginning

Chorus

So catch this falling heart into your arms
Catch this fading life from the fire
Wipe away the tears that come from a broken heart
Give me a brand new start
I need a brand new start

Verse 2

I need you love you never ending mercy
Only you can turn the old to new
And you are my hope
All the hope I have is in you

Bridge

Take this life take this heart
Take this end and make it a start
Take this life take this heart
Take this end and make it a start
