Holy

Verse 1

Theres a reality beyond our comprehension
and theres a future beyond our wildest dreams
and there will come a day there will come a time
when we'll all be singing

Chorus

Holy with one voice we're singing worthy
all the angels with us
holy all creation singing worthy

Verse 2

This world will pass away
along with our possessions
and we are here for one fading moment
and there will come a day there will come a time
when we'll all be singing
