Live like there's no tomorrow

Verse 1

Time keeps passing by
No ones guaranteed tomorrow comes
No life time warranties no limited policies
So make the most with what you have

Chorus

Live like there's no tomorrow
Live like it's the end of the world
Live like there's no tomorrow

Live like it's the end of the world

Verse 2

Every moment spent
A chance to be the light that shines for the the world to
see
And every moment spent a chance you never get back
now
So make the most with what you have
