Smoke screen up ahead
And I know that you fled
From the pain and subsidence of a ghost
It was never said
You fell upside
Downside
Blindside
Youre gonna start to fall off the edge
Like a lump of lead
I throw a reason and you throw it flying back to me
Complicated out of sight, was it meant to be?
Another time
Another place
Open smiles on her face
And Im sinking
Cant stop thinking
Well just in case
There's a hole inside of me
And it's cut so clinically
A lesson learned
And no regrets
There's a hole inside of me
And it's cut so clinically
A lesson learned
And no regrets
(For me)
Smoke screen up ahead
And I know that you fled
From the pain and subsidence of a ghost
It was never said
You fell upside
Downside
Blindside
Youre gonna start to fall off the edge
Like a lump of lead
I throw a reason and you throw it flying back to me
Complicated out of sight, was it meant to be?
Another time
Another place
Open smiles on her face
And Im sinking
Cant stop thinking

Well just in case
There's a hole inside of me
And it's cut so clinically
A lesson learned
And no regrets
There's a hole inside of me
And it's cut so clinically
A lesson learned
And no regrets
(For me)
