Confusing situation
Brings about, the devil in me
I hide watching the sun go down
I see it disappear
Then I just start burning down
Everything that I've worked for
It's suicidal they say
It's suicide

Anything for two
How was I to know
Fan the flames of separation
Anything for two
What am I to do
No need for explanations

I tried so hard not to
Take down all defenses
Now I'm learning
Maybe this will kill me
It's suicidal they say
It's suicide

Anything for two
How was I to know
Fan the flames of separation
Anything for two
What am I to do
No need for explanations

Should I leap form this perch
Should I leap form this perch
Have I grown wings, strong enough to take
Strong enough to take me
Far
