(Intro)

Can I rock to this rhyme?
You're not on my mind
They say we blowin' up
Don't jump on a mine
I once had a time
Tell the world I was blind
Now I see everything
Through these contacts of mine
I'm at the office yeah
I does it again
I touch it, it wins
That why the label buzzin' me in, uh
Tell my momma I won't stop 'til I'm signed
I'm hot with the ryme
You Megatron, I'm Optimus Prime
I'm locked in a line
I'm just waiting for my turn
Still fresh as def'
So this paper I gotta earn
I ain't Stern
David commision me for athleticism
The prototype on the mic
Just check my mechanism
And they ask how you make the world feel it?
I say it's DNA, It's just in my double helix
Controversey sells,
Controversey sells
And I'ma take this line
To the Presidential hill
Now Barack, though I love ya
You in a lower weight class
I'm above ya
Can I get this?
Guarantee I spit this
Hand on the stand
I guarantee you should witness, yeah
The boy back like retro
I want my car to have lights like Esco
I'm in a class, in the corner

I'm special
The flow's magic, magic, presto
I take off before, and I break off
Perfect attendance
I'm never taking days off
And while I put in work
And they getting a lay off
And this is based off
Flow
I'm feelin like I'm near cash
On drive, so I steer fast
Don't they feel my impact like a deer crash?
Promise I tear
If I wait, you see it's frontin'
Make the rain go away
Like a windshield wipe
I'm right, I'm wrong
I'm everything above
A big enough heart
To give a hater a hug
Shootin' off
Whether it's grenades or a slug
Still bees, honey bees, designated by bugs
What?
