Visit "[Colonized](#)" on MotoLyrics.com

From the beginning
These lives you were dealing
Empathize no more
What you were making
The noise you're creating
Taste the kiss of your(?)

Do unto(?) you
We commit to
Do unto you
To honor you

Colonized

Now i owe you
obrigado
Yes i owe you
obrigado
Against the brain
We go to fight what we don't know
You were there instead
Lifted us up; from the stand up and resist
We try to pay this debt

Looked up to the sun
You are the only one
Looked up to the sun
I see you

I'm tired of you(?)
Sustain this for you(?)
