Who wants to tell me I can't give a big fuck in to
The world?
Who ya think you are?
You are just another p.o.s. like me
Feel the sickness that I have inside
Did I say you matter, well I guess I lied
Who wants to tell me I can't give a big fuck in to
The world?

Don't try to save my life
So you can feel alive

It's no body's right to tell me how I'm suppose to feel
Get away just ta fool
You don't even know what's real
See how fucked up I am inside
Don't even try to disect my mind
It's no body's right to tell me how I'm suppose to feel

Don't try to save my life
So you can feel alive

Do you see me
Do you see me
Do you see me
Do you see me
Do you see me
Do you see me
Do you see me
Do you see me...
