You never knew me  
Drag this knife onto the skin  
And draw some blood  
It should make me feel alive  
No regrets  
We shouldn't even be here  
Dreams will come for you and  
Nothing should ever be clear

There's no excuse I am the snake  
Here's my heart,  
It's drenched in fiction  
Will you take it?  
Forever and ever we'll be

Drag this knife onto the skin cause I'm not scared  
Have no reason to believe my words dear  
We shouldn't even be here  
Dreams can comfort you and  
Nothing should ever be clear

There's no excuse I am the snake  
Here's my heart, drenched in fiction  
Will you take it?  
There's no excuse there's no escape  
Here's my love,  
It's my addiction will you take it?  
Forever and ever we'll be 3x

In this room  
Everything's so real in this room  
Everything's so healed in this room

Drag this knife into the skin  
You'll never know until you try (dreams can comfort you  
and)  
You'll never know until you try (dreams can comfort you  
and)  
So come on and give this some try (dreams can  
comfort you and)
