Drop the bomb!

Hey, little girl take a look into these eyes
The eyes of the sucker of all your fucking lies
Playing all your games
Everybody go insane
Check ass slut
You got me choking with the pain

Why do you have to go and lie so much
Is this some sick pleasure
Cannot take the pressure
Fuck that you bitch
Forget asking why
Say goodbye to your mama
Baby dry your eyes

Liar
Baby realize how you're playing us
Liar
Baby realize how you're playing us
Liar
Baby realize how you're playing us
Liar

You're the kind of girl that don't give a fuck
You better come around so you better know what's up
Check it out crow
I wonder if your eye's out
That's a hard price
Now you fucking know what I'm about

I check it out with my drapes and sing
The only time I see you is in the porno scene
Facts remain I wanna take this fucking drive
Facts for me, I wanna see you die

Liar
Baby realize how you're playing us
Liar
Baby realize how you're playing us
Liar

Baby realize how you're playing us
Liar

You lied to me, you lied to me
Facts remain, I wanna see you die

Hey, li'l girl take a look into these eyes
The eyes of the sucker of all your fucking lies
Playing all these games
Everybody go insane
Check ass slut
Let me choke with the pain

Why do you have to go and lie so much
Is this some sick pleasure
Cannot take the pressure
Fuck that you bitch
Forget asking why
Say goodbye to your mama
Baby dry your eyes

Liar!...

Liar!...
Liar!...
Liar!...
Liar!...
Liar!...
