Put sometime in realizing
I'm some pathetic scum

Look who wants to be down
See he wants to stay around
Cause there's a lot that he don't know
You love to say you feel was never real
Never cared for my need
Now watch me bleed
You wanna save my life
Just twist the rusty knife
Now let me tell you nice
Stay the fuck outside

Come
Take a look inside
Come
Take a look inside

Look who wants to be down
See now he wears a frown
With the both of us, well, smile
Just turn away
Now go out play
Leave me here
Get away from here
