looking down
its right in front of you
my Â...Â...
so what was i to do

you made me smile
i was your everything
ill be back
when he is through

but i cant make it on my own

close your eyes, remember everything
hold you breath, hold onto anything
ill be here, if youll be here

close your eyes, remember everything
hold you breath, hold onto anything
ill be here, if youll be here

go on girl, and spend the night again
and ill make you feel like this used to
cause im with you, and i need you

you made me feel, like im at home again
and i hope that you feel this way too
cause i love this, the way we kiss

and you make me smile
close your eyes, remember everything
hold you breath, hold onto anything
ill be here, if youll be here

close your eyes, remember everything
hold you breath, hold onto anything
ill be here, if youll be here

hold you breath dear
when you get home
i wont be here
and know that i swear
that forever meant forever

but forever had to change
it had to change

i had to change

close your eyes, remember everything
hold you breath, hold onto anything
ill be here, if youll be here

close your eyes, remember everything
hold you breath, hold onto anything
ill be here, if youll be here
