And I'll sing you songs from every station;
play along so you can see this melody,
it means the world to me.

It gets so hard for me to
express the things I need to say
and tell the things that mean the most to me,

but I'll start with you.
I know you won't believe it's true,
but you're everything to me.

As you let me go,
I'm on my way.
I hope you feel the same.

And I'll sing you songs from every station;
play along so you can see this melody,
it means the world to me.

And I'd sing you every song I wrote
if you would only listen, you would know
that you still mean the world to me.

Get me out of this nightmare.
That summer saw the worst of me.
Believe your friends when they all say
"Let go, it's not worth it, it's not worth it."

Let go
And I hope I'm wrong.

As you let me go
I'm on my way,
I hope you feel the same

And I'll sing you songs from every station;
play along so you can see this melody,

it means the world to me.
And I'd sing you every song I wrote
if you would only listen, you would know
that you still mean the world to me.

So take these words to heart.
It won't take that long
we'll find each other now.

So take these words to heart.
It won't take that long
we'll find each other now.

And was it worth it yet to take this from me?

And I'll sing you songs from every station;
play along so you can see this melody,
it means the world to me.

And I'd sing you every song I wrote
if you would only listen, you would know
that you still mean the world to me.

The world to me, Woah oh
