Lil B

Fuck em, yea  
Double fuck em  
Aye double cup fuck em, you feel me?

I leanin and I'm like fuck em so double cup fuck em  
Yea

I done seen niggas dreams lean and go fake  
I done seen bitches scheme, green and call rape  
What the fuck would I do if I wasn't the boss?  
If I couldn't take a loss I'd be back in the hall  
Niggas waited too long just to get a piece  
I was trappin in the east, I ain't get no sleep  
Is one deep on the bar, I got that hard  
Nigga catch me in the west, I must confess  
Just to wash away the rain and all the pain  
Things going through the mind, I cried sometimes  
But I'm alright, I be okay  
You can call it what you want but I'm calling it based  
And I don't give a fuck man who makes snitch niggas  
fly  
Only love in my heart, I look em dead in the eye  
Suits dead in yo head, better cover your eyes  
I'm knocking right at your door and I got a surprise

It's Lil B  
That's cinema strike 2  
Glassface
