(Girl's voice) Hello?  
Man, what's up?  
Uhhh, I can't believe this, man  
So I just got some news from the doctor, man

[1st Verse]

I got AIDS, God damn, I can't believe this shit  
The last time I f-cked was my girl, I can't believe that  
I let me think "Goddamn, it was another girl"  
Got a lot of things in my life, but now I'm in the swirl  
No protection, I should've used a condom  
Instead of trusting these women. I never got tested  
I felt fine, I never got sick, plus I look good  
My mom said "keep your d!ck in your pants, and you be good"  
I was worried about getting her pregnant  
Not knowing she had full-blown aids, and she sexin'  
Everybody, cause real talk, she ain't even tell me  
Mad at her last man, she held the pain in her belly  
Damn

[Based God on the phone with his b!tch 2]

Yo, I heard that motherf-ckers said I'm HIV positive  
What is going on?  
(Girl's voice) Oh my God, are you serious?  
What the f-ck, man? I wouldn't be lying about it  
(Girl mumbles)  
Now there's something you gotta tell me  
What you gotta tell me?  
(Girl mumbles again)

[2nd Verse]

Now I'm f-cked cause I had unprotected sex  
Take it from me: go get checked, that be your best bet  
On top of that, I got herpes when she gave me AIDS  
My life ending early if I don't got no cash to pay  
Magic Johnson, only one still alive  
Sitting down all alone, it makes me want to cry  
I can go back in time, I would've used a condom  
Now I'm dying, saying "goodbye" to my momma  
Damn

[Based God on the phone with his b!tch 3]  
Yo, what the f-ck, man?  
(Based God mumbles)  
My life's about to be over, man  
My life's over. I can't f-ckin' believe it  
(Girl mumbles)  
Man, that's all you gotta say, man  
Both our lives done now  
I probably f-cking won't be able to trust nobody ever  
again  
(Girl's voice) Oh Godâ€¦!  
I'mma talk to you later, that's all I can say  
(Girl's voice) Okay, please call me back

[Based God PSA]  
I wanna tell everybody, make sure y'all get tested, man  
This is not a game  
A lot of people have STDs right now and don't even  
know it  
You look perfectly fine and you feel fine  
It takes a few months a few months for something to  
form in your body  
But you can have it and be perfectly fine  
Make sure you're not transferring these STDs to other  
people  
I know it hurts, sometimes you don't even want to know  
But to protect the world and be fair to everybody else,  
make sure you get tested  
And don't trust nobody because a lot of people are  
lying  
A lot of people don't even really know  
And don't think cause a person looks good that they  
"free"  
Cause there's a lot of people that got HIV
