[Intro:]

Yeah

This one here

Goes out to all the lovers out there

And if you have someone

That you love with all your heart and soul

Then don't ever lose them

They mean everything

[Chorus: x2]

Baby, I love you

And I'll never let you go

I'll always keep you, baby girl

That's fa sho

I loved you from the start

You're always in my heart

And I don't know if I could live if we were apart

[Verse 1:]

Baby

Ever since we met

My life has changed

Things got better

And I have you to thank for that

So now I just wanna let you know how I feel

Check it

Since the first moment I caught your eyes

There was somethin' about 'chu I can't deny

Fell in love for the very first time

It blew my mind 'cause you were fine

You're in my arms, right next to me

Baby girl, you got the best of me

So I wrote this song to let you see

That you're the only one that's meant for me

So sweet and cuddly

So cute and fine

When you said you loved me I knew you was mine

We had some troubles

At times we struggled

But I knew at the end we'd stay a couple

So I don't care what the others say

I love you and you love me
I'm just waitin' for that special day
We get married and have a family

[Hook:]

Hahaha
Yeah, yeah
If y'all feel me on this one
Then put your hands together
Just like this
Hahahaha, c'mon
If y'all got a special love out there
Why don't y'all grab a hold of 'em
And sing along now

[Chorus]

[Outro:]

Yeah, baby
You'll always be in my heart
And I'll always be here for you
Through thick and thin
And through whatever
Just remember
Baby, I love you
