[Yasmeen:]

I was just thinking that
Maybe we should be a little more than friends
Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you...

[Lil Crazed:]

Story begins with only two friends
I was playing the game already known as a neusement
But truth is
Things tend to change within time
So now I think it's time for me to say what's on my mind
See the sparkle in your eyes makes it hard to deny
That I can see a star without looking in the sky
Laying next to you gets me twisted and tangled
Listening to your breathing is like I'm hearing whispers
from an angel
Easing all my pain and taking away all the stress
Even without guide then my life is a sure a mere bless
So I need to tell you now before the story ends
I was thinking maybe we should be a little more than
friends

[Yasmeen:]

I was just thinking that
Maybe we should be a little more than friends
Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you
I was just thinking that
Maybe we should be a little more than friends
Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you

[Lil Crazed:]

I remember when we conversated on the phone late at
night
Giggle, laugh, while we tickled eachother in play fights
But it's strange, I rearranged the game within the same
night

Go out and find me a girl to maintain my game tight
But you know the saying
Ain't no game without pain, right?
Cause we had a past, and played the blame game
Playing nights
Love has a cost, and through that I think I played the
price
But things change, including players and the way of
life
I know this when I was dim
You kept my flame bright
And I felt ashamed cause the way my feelings
remained outta sight
I held back, cause I was catching a case of stage fright
But now I made some way for a relationship to take
flight
I was just thinking that

[Yasmeen:]

I was just thinking that
Maybe we should be a little more than friends
Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you
I was just thinking that
Maybe we should be a little more than friends
Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you

[Faded Out In Background: Lil Crazed]

I was just thinking that
We should be a little more than friends girl
You know, it's time I let you know what I feel (Uh huh)
And I need to know what you feel
Do you feel the same way?
Heh, and uh, sometimes the heart speaks with invisible
words to the eye (Yeah)
So uh, lemme know, cause I can't see it (Okay)
But I know your heart knows it, that's right

[Lil Crazed:]

My eyes remain blurry but my heart has seen the truth
And my mind is telling me girl I only wanna be with you
To complete my life, there's only one thing left for me
to do
Is ask you, would you be my girl

[Yasmeen:]

I was just thinking that
Maybe we should be a little more than friends

Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you
I was just thinking that
Maybe we should be a little more than friends
Cause I like the way we kick it and I don't want this night
to ever end
Said I only wanna be with you
Lemme know, you gotta lemme know
Lemme know, you gotta lemme know...
