Xaphoon, you crazy...

Crazy, crazy, crazy, cra, cra, cra, crazy...

Can I rock to this rhyme? You're not on my mind,  
They said we blowin up, don't jump on our mine,  
I once had a tie to the world, I was blind,  
Now I see everything through these contacts of mine,  
I'm at the office, yeah I does it again, I touch it, it wins,  
that's why the label buzzin me in,  
Uh, told my momma I won't stop til I'm signed, I'm hot  
with the rhyme, you Megatron, I'm Optimus Prime,  
I'm locked in a line, I'm just waitin for my turn, still  
fresh to death, so this paper I gotta earn,  
I am Stern, David comissioned me for athleticism, the  
prototype on the mic just check my mechanism,  
They ask, "How you make the world feel it? "  
I say it's D-N-A, It's just in my double helix,  
My controversions sells, if controversy sells,  
Then I'm a take this 9, shoot the president and bail,

Uh, not Barack though I love ya, you in a lower weight  
class, I'm above ya,  
Can I get this? Guarantee I spit this, hand on the stand,  
I guarantee you should witness  
Yeah, the boy back like retro, I want my car to have NOS  
like Esco,  
I'm in that class in the corner I'm special, the flow  
magic, magic, presto  
I take off, before it, I break off. Perfect attendance I'm  
never takin days off  
And while I put in work they gettin a laid off, and this is  
based off, flow.  
I'm feeling like I'm near cash, on drive so I steer fast  
Don't they feel my impact like a deer crash  
Promised aunty if I win you see it's right, make the rain  
go away like a windshield wipe  
I'm ripe, I'm raw, I'm everything above  
A big enough heart to give a hater a hug  
Shootin off whether it's grenades or a slug, still bees  
honey bees designated by buzz, what?
