Thought I could handle this  
Searching for evidence  
To catch him red-handed  
But now it's blowing up in my face  
Found out 'bout the other chick  
Wasn't a coincidence  
I knew all along  
But didn't wanna live up to it

Know soon I'm gonna hit the fan  
Should've left when I had the chance  
But I keep fallin' into his lies over again  
Really thought he would change his game  
After he made mistakes  
It's time I let you be  
I'm-a have to cut you off cold turkey

This addiction ain't no good for me  
Gotta break away a.s.a.p.  
Only way that I can do it is cold turkey  
I'm-a get through all the shivering  
Missing your body next to me  
I can't quit it, gotta quit it  
Cold turkey  
I can't quit it, gotta quit it  
Cold turkey

I used to blame myself  
Try to be someone else  
Thought I could change his mind  
And give him another me  
Guess it wasn't worth it  
There's no way to save this  
Tired of sleeping with the enemy

Know soon I'm gonna hit the fan  
Should've left when I had the chance  
But I keep fallin' into his lies over again  
Really thought he would change his game  
After he made mistakes  
It's time I let you be  
I'm-a have to cut you off cold turkey

This addiction ain't no good for me  
Gotta break away a.s.a.p.  
Only way that I can do it is cold turkey  
I'm-a get through all the shivering  
Missing your body next to me  
I can't quit it, gotta quit it  
Cold turkey  
I can't quit it, gotta quit it  
Cold turkey

I love ya  
Baby, but love just ain't enough  
Staying here ain't a good look anymore  
It's dangerous  
With you, still be a runner-up  
Told you this day soon would come  
Should've took me a little more serious  
'Cause I loved ya

I love ya  
Baby, but love just ain't enough  
Staying here ain't a good look anymore  
It's dangerous  
With you, still be a runner-up  
Told you this day soon would come  
Should've took me a little more serious  
(A little more serious, cut you off cold turkey)

This addiction ain't no good for me  
Gotta break away a.s.a.p.  
Only way that I can do it is cold turkey  
I'm-a get through all the shivering  
Missing your body next to me  
I can't quit it, gotta quit it  
Cold turkey  
I can't quit it, gotta quit it  
Cold turkey
