Didn't even start the day already another argument  
Well maybe if you wasn't so quick to throw it out the  
window and just give in  
I guess you didn't mean it, shouldn't of made promises  
you couldn't keep  
This aint the way that was suppose to be, no

Why do you have to play me like a harp  
Pulling all my strings and controlling my heart, yeah  
I could of sworn we were written in the stars  
And i don't want to endure it, but your the only one  
thats for me

If i only had the strength to never look back  
It wouldn't be so serious, if i never felt your touch  
Why do i still believe you'll change,  
Well now i guess i'll let you have your way

It's easier to stay, stay, stay

This time i wont let you see im affected by your  
nonsense  
Wipe my tears put a little more make up on my brand  
new face  
It's taking all of me to not walk away instead i'll keep  
the peace  
If it wasn't for you it would be so easy, yeah yeah

Why do you have to make this so so hard  
Pulling all my strings and controlling my heart, yeah  
I could of sworn we were written in the stars  
I dont wanna endure it but your the only one thats for  
me

If i only had the strength to never look back  
It wouldn't be so serious if i never felt your touch  
Why do i still believe you'll change  
Well now i guess i'll let you have your way

It's easier to stay, stay stay

I don't want to close your door

The screen is enough  
It's never worth all the distance, no  
And i cant see myself with out ya  
The thought of starting over  
It's not the reason why i ever fell in love with you,  
with you  
with you  
with you

If i only had the strength to never look back  
It wouldn't be so serious, if i never felt your touch  
Why do i still believe you'll change,  
Well now i guess i'll let you have your way

It's easier to stay..
