Baby I can do better then when we were together
Like a diamond in the rough girl I'll clean my act up
It took you walking out to learn and everyday I lay with
heart burn
I know now, I know now, without you girl I'm barly
getting by

Baby one chance is all I need not to show you that I'm a
gentlemen
Let me back in your heart again
One chance would change your heart and take away
the hurting
Thought I could do this (?)
Just leave it up to me darling were gunna get through
this
I need my style back in my words to light my light

See I can be your heart insurance
And any time you need reassurance
I'll remind my love to your condense
You got my heart insurance
I can't eat can't sleep
Can't you hear it in my melody
Can't think can breath
Come back to me, come back to me

I'm telling ya your the one for me and still stare at your
picture girl
Don't know what it is but ever since you've been gone
it's your face I've been missing girl
The first thing I would do if I could see you is hold you
in my arms from morning till noon
You said make it feel like it was the first time

Baby one chance is all I need not to show you that I'm a
gentlemen
Let me back in your heart again
One chance would change your heart and take away
the hurting
Thought I could do this
Just leave it up to me darling were gunna get through

this
I need my style back in my words to light my light

See I can be your heart insurance
And any time you need reassurance
I'll remind my love to your condense
You got my heart insurance
I can't eat can't sleep
Can't you hear it in my melody
Can't think can breath
Come back to me, come back to me

Have you ever done something you can't undo
Have you make a mistake that you regret
Have you wish you could stop it and just prove I love
you
Anybody going through it can sing it with me, yeahh
yeahh, yeah yeah
Anybody going through it can sing it with me, yeahh
yeahh, yeah yeah

See I can be your heart insurance
And any time you need reassurance
I'll remind my love to your condense
You got my heart insurance
I can't eat can't sleep
Can't you hear it in my melody
Can't think can breath
Come back to me, come back to me

You got my heart insurance
I can't eat can't sleep
Can't you hear it in my melody
No I wont eat I wont sleep
Come back to me yeah yeaha
