Finally I see what people really mean
when they say that love will blind you
it happened to me and im so thankful for you baby
since the day we met you changed my life around
the sun in just a little brighter now
the kind of joy u bring is o so spcial to me baby

I dont think ive ever
felt like this before
i kno that ive never met no on like you
i dont thnk ive ever had a love so true
i dont think ive ever

when you come around i cant help but to smile
girl i gotta say i like your style
say that u are down to be forever faithful to me

since the day we met
you changed my life around
teh sun is just a little brigther now
the kind of joy you bring is o so special to me baby

I dont think ive ever
felt like this before
i kno that ive never met no one like you
i dont think ive ever had a love so true
i dont think ive ever

I dont think ive ever
felt like this before
i kno that ive never met no one like you
i dont think ive ever had a love so true
i dont think ive ever (repeat)
