No where to go down these dead end roads
I tried to flee, just to free my soul
It's a sanction, which way to go
I don't know(I don't know)
I tried the highways, but the highways closed
Now I'm blinded by a dusty road
Uncertain which way to go, to find my way back home,
to Texas

(Lil Flip Talking)

Yea, I want you to walk with me
I done been through a lot of struggles
Alot of ups and downs
Yall think it's a cake walk

(Chorus)

Tell me why
I can't see where I'm goin
No
When everybody else sees
Where I'm comin from
And I don't know why
I travel down these dead end roads
I gotta turn this car around
And find my way home.

(Lil Flip)

Will you listen to my music do you feel my shit
Look I don't need punch lines cuz I live my shit
A lot of cats sellin their soul for radio play
That's why we need more rappers like Common n
Kanye
Nigga scared to be broke so they fake it to make it
If my album went gold I'd still be the greatest
Back in the days I would get caught for truency
But now I'm puttin money back in my community
I took my homies out the hood n now they got jobs
Cuz there's more to life then dodgin cop cars
I played the block hard n now I play the pop charts
But now I'm getting dumb money cuz I got smart

(Chorus)

Tell me why

I can't see where I'm goin

No

When everybody else sees

Where I'm comin from

And I don't know why

I travel down these dead end roads

I gotta turn this car around

And find my way home.

(Lil Flip)

Hey yo I never seen a man cry til I seen a man die

So when you talk to me look me in my damn eyes

Cuz I been through it all and my scars prove it

Cuz when it come to that paper homie Ima do it

I just rhyme part time you better know it

These lines comin from my mind so I never wrote it

I keep my nine by my spine so I never show it

Yeah im addicted to pine but I never grow it

And the reason I got signed is cuz im a poet

Half of my niggas doin time but im focused

That's why im stayin on the grind if u haven't noticed

That old cadillac transformed fully loaded

(Chorus)

Tell me why

I can't see where I'm goin

No

When everybody else sees

Where I'm comin from

And I don't know why

I travel down these dead end roads

I gotta turn this car around

And find my way home.

When ya new album drop everybody ya friend

Niggas actin like they down but I know they pretend

I used to scrape up money for studio time

I'm like Jay-Z homie I remember my rhymes

Ain't nobody helped me out when my cash was low

My bills comin to fast so I had to blow

And I walked by fate not by sight

Cuz I know G-O-D will guide me right

I take the bitter with the sweet I know u feel my pain

Why we gotta get harassed when we board the plane

I ain't tryin to preach to ya but I hope you relate

Cuz even at a dead end you gotta find your way

OK

OK

(Chorus)
Tell me why
I can't see where I'm goin
No
When everybody else sees
Where I'm comin from
And I don't know why
I travel down these dead end roads
I gotta turn this car around
And find my way home.

(Lil Flip talking)
Yeah
I wanna dedicate this track right here to my
grandparents
You know
They stuck with me
Through thick n thin
You know what I'm sayin since day one.
I got my family.
You know I ain't got no back problem.
So I dedicated this to you.
Pray to God you gonna find a way.
Holla back.
