Oh yeah

One foot in the jaw the whole room poured it was like I
was in slowmotion
Had the girls in more and I wasn't so sure where my
night was going
There was different flavours all of my favours down
would you ever
Baby not the same much no complaining can you any
better

[Chorus 1:]

You are a me it's not your good looks, it can all crawl
sweet it fits on the studs
Baby
We can all get along tonight there's enough of me
there's no need to fight
Let's get this party going all night long

[Chorus 2:]

Which way do I go got one in every dance turning me
on in stereo
Cause wanna raise a bar
Can start a dream in coming home
With me let it get close with me

[Chorus 3:]

I just have to take them both to the crib so we can bump
in stereo
Bump bump bump bump in stereo
Bump in stereo
I just have to take them both to the crib so we can bump
in stereo

It's every mans dream to be in between half your way
with 2 women
Both look mean both want me so I make a decision
The way I see good things coming free am making my
ambition
The more of a Mary ain't no need to nest are other
fusion

[Chorus 1:]

You are a me it's not your good looks, it can all crawl
sweet it fits on the studs

Baby

We can all get along tonight there's enough of me
there's no need to fight
Let's get this party going all night long

[Chorus 2:]

Which way do I go got one in every dance turning me
on in stereo
Cause wanna raise a bar
Can start a dream in coming home
With me let it get close with me

[Chorus 3:]

I just have to take them both to the crib so we can bump
in stereo
Bump bump bump bump in stereo
Bump in stereo
I just have to take them both to the crib so we can bump
in stereo

Not the kinda way take a free way
I want to gone to get bad on the backstreets
Up up all day is it ok
Get it round after round keep it going on the b sheets
Not the kinda way take a free way
I want to gone to get bad on the backstreets
Up up all day is it ok
Get it round after round keep it going on the b sheets

[Chorus 2:]

Which way do I go got one in every dance turning me
on in stereo
Cause wanna raise a bar
Can start a dream in coming home
With me let it get close with me

[Chorus 3:]

I just have to take them both to the crib so we can bump
in stereo
Bump bump bump bump in stereo
Bump in stereo
I just have to take them both to the crib so we can bump
in stereo
