Chorus

Hold on, Baby, wait and see
Time will, tell us, should we be
If so, there's no need to speak
What we, have comes, naturally

Pretty girl I see you over there
All wondering
What it is that's making you stare at me (Baby)
I can feel it in the air, there's chemistry
Can't wait to get a chance to make it complete

Chorus

Hey yo Eddie,
I think I want you to kick that in Spanish for the
Mommies

(Verse 1 in Spanish)

Chorus

Bridge
I really need for you to see, it's you and me
So let it go cause what we have goes naturally
It's not unusual to feel, so sexually
So wherever this will go, it's cool with me
(So naturally)
