Baby, what would be the best move?  
Do you in my guest room  
Shorty let me bless you  
Show you what the sex do

Yes, dudes the best dude  
Tryna sex you  
Heard you got that grade A  
Come and let me test you

I lay you down  
Let me show what that twin like  
Girl you say you sick  
Lemme be your medicine like

Plus you say you been tight  
You ain't had a fit right  
Bet I make you feel nice  
You ain't had a hit like

This is surely I don't miss  
One kiss will make you drip  
Baby, lose your grip

One stroke you'll have you soaked  
Baby that's for sure  
And you say you wanna know  
So what the hell you waitin' for

This is what we do  
We was in my bed  
California king  
Me between your legs

Lay you on my queen  
Or my twin instead  
Say you wanna know  
How far we wanna go

This is what we do  
We was in my bed  
California king

Me between your legs

Lay you on my queen  
Or my twin instead  
Say you wanna know  
How far we wanna go  
Just get in my bed

You wanna know if we roll out  
Will I give you that proper  
On a Fruition or a roll out, baby  
I am a monster

You'll be callin' your doctor  
You'll be screamin' a lot of  
Nasty things they'll think I been doin'  
You callin' me papa

Baby, I'm not ya daddy  
I just give you that good  
But after some face  
I can give you that great

We done that seven fifty nine  
And you be feinin' that eight  
You tell your friends that you fine  
But they know you can't wait

Because you talkin' about me  
Like everyday  
And you tell them how we do it  
In like every way

So you say you wanna roll  
But first you gotta know  
Just how far we wanna go  
What the hell you waitin' for

This is what we do  
We was in my bed  
California king  
Me between your legs

Lay you on my queen  
Or my twin instead  
Say you wanna know  
How far we gonna go

This is what we do  
We was in my bed  
California king

Me between the legs

Lay you on my queen  
Or my twin instead  
Say you wanna know  
How far we gonna go  
Just get in my bed

Bed so I can break you off  
Take it off, make it hard, make it soft  
My patience gone  
Now let me rip them labels off

Lay you cross this table cloth  
I been havin' crazy thoughts  
'Bout bras and panties  
Hope they matchin' me wit this blazer off

Come here lemme blaze you off  
Yes babe, I'm a major boss  
You'll be glad you paid the cost  
Now come here get yo major toss

Fizzy boy amaze 'em all  
Invade the walls and break 'em all  
I laid you down, I laid you out  
And now its time to lay you off

This is what we do  
We was in my bed  
California king  
Me between your legs

Lay you on my queen  
Or my twin instead  
Say you wanna know  
How far we gonna go

This is what we do  
We was in my bed  
California king  
Me between your legs

Lay you on my queen  
Or my twin instead  
Say you wanna know  
How far we wanna go  
Just get in my bed
