Hey Note, I'm tired of these niggaz stealing our shit
mayn

D Red now you know damn well, we started off riding
blades

Having the big chains, the diamonds in our grill

I mean, how much can you steal from a nigga mayn
God damn mayn, I'm a Southside nigga till I die nigga
Niggaz trying to act like Clover Geez, ain't got no
money nigga

You see everybody pieced up, 'cause we ain't broke
nigga

What you know about the South? Diamonds up in our
mouth

Breaking you boys off, Clover Geez in the house

What you know about the South? Steady gripping that
grain

Nigga sipping that drank, getting that money mayn

What you know about the South? Get on it

If it's money to be made, then I want it

A lick to be hit, so you know I'm gonna hit it

A dollar to be made, so you know I'm gonna get it

You ain't know, I could spit it like this

I hustle on the block, but I can get it like this shit

Five hundred ki's, is equivalent to me

I break down the beat, like I break down my weed

I skate down my street, with my K by my feet

To make it in my hood, you gotta pay off police

I stay off the leash, don't play y'all capish

One phone call and you'll be in the grave with your
peeps

Don't run up on me, I wish you would

You ain't welcome to my hood, we still grip the wood

From Herschelwood to Cloverland to Blue Ridge

We got it locked nigga, you can ask Whoo Kid

Nigga is you stupid, I'll let the K spray

I'm a king with drama, ask Kay Slay
Spread your lies fuck boy, go on talk about me
I'm the real deal, nigga you a carby copy

What you know about the South? Diamonds up in our
mouth
Breaking you boys off, Clover Geez in the house
What you know about the South? Steady gripping that
grain
Nigga sipping that drank, getting that money mayn

What you know about the South? Get on it
If it's money to be made, then I want it
A lick to be hit, so you know I'm gonna hit it
A dollar to be made, so you know I'm gonna get it

What you know about it? Even when it's hot nigga
pushing snow up out it
The Dirty South got it locked, 'cause some'ing glow
about it
I hit the hottest club spot and pull a hoe up out it
What you know about it

I'm from the land of the trill, the land of fifth wheels
The land of diamond grills and them freestyle skills
Be po'ing up that drank and we po'ing up the paint
And we steady smoking dank, so nigga fuck what you
think

Blowing shit that niggaz can't, but niggaz still try to
copy
I just keep shit real boy, y'all niggaz just sloppy
Tried to steal all my fans and you almost had 'em
Till they found out your new shit sound like my old
albums

Heard you boys ain't true, wanna be like my whole crew
You even got a lil' DJ, trying to be like Screw
But nigga y'all can't do, what the fuck my niggaz do
So much ice up on my body, will make a bitch nigga
blue

What you know about the South? Diamonds up in our
mouth
Breaking you boys off, Clover Geez in the house
What you know about the South? Steady gripping that
grain
Nigga sipping that drank, getting that money mayn

What you know about the South? Get on it
If it's money to be made, then I want it

A lick to be hit, so you know I'm gonna hit it
A dollar to be made, so you know I'm gonna get it

It's going down nigga, spray a few rounds nigga
You a clown nigga, D Red a O.G. nigga
Yeah, I know you heard about me
Ask around town but your game was sloppy

Ery'body that you talked to
Said the real nigga, G nigga from the Botany

Heavy in the game real rhyiming boy

Still toed digging though what you know?
And you know yeah, I'm real with the gansta boy
Just spot up at the club, me and my niggaz is showing

Looking nice on dro, everybody on the real fifty deep

Clover Geez gon' wreck the show
Then after the show we taking all the hoes

Jumping down in the big whips
