How do you want me to love you, when you keep on holding yours back?
Why, you must think your mama, have got rubber in her back
Now you started to kissin', I asked you to stop, but I could not resist 'cause those kisses was hot
When it comes to lovin', you all right with me, 'cause you got everything that a good man needs
Yes, I twirled and I twirled, baby, I twirled from right to left
Now if you want any more lovin', baby, you'll have to twirl yourself

Yes, I climbed and I climbed, like a fox up a tree, I climbed so high you stole my cherry from me
How do you want me to love you, when you keep on holding yours back?

How do you want me to love you, when you keep on holding yours back?
Why, you must think your mama, have got rubber in her back
Now you started to kissin', I asked you to stop, but I could not resist 'cause those kisses was hot
When it comes to lovin', you all right with me, 'cause you got everything that a good man needs
Yes, I twirled and I twirled, baby, I twirled from right to left
Now if you want any more lovin', baby, you'll have to twirl yourself

When my gauge goes up, and my love comes down, I gets on your trail like a thirsty bloodhound
How do you want me to love you, when you keep on holding yours back, I mean,
when you keep on, keep on holding yours back?
