### "Caught Up"

Visit "[Caught Up](#)" on [MotoLyrics.com](http://MotoLyrics.com)

The most beautiful thing that god has ever thought up  
He sent you here to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up caught up

It's time to educate  
No need to retaliate  
Let's have a good time and celebrate  
No room for hating our hearts  
That only tears us apart  
And that we're doomed from the start  
Just to live in the dark  
May be in the light  
So come to the light  
And do what's right  
I train to fight so I don't have to fight  
And keep it tight  
Let me enlighten your soul  
The same way she enlightens mine  
She getting that glow like Leroy  
I'm appreciative but I can't show enough  
Gets me higher than any drug you know what a rush  
Beautiful and intelligent  
She taught me so much  
I'm on for the better now she's changing me up

The most beautiful thing that god has ever thought up  
He sent you here to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up  
The most beautiful thing that god has ever thought up  
He sent you here to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up caught up

Baby you show me the light  
Showed me a different way to look at life  
And it's nice  
And I like what I see  
Sometimes it gets bad  
And I get sad

Cause I know you cant be right here with me  
But imma continue on this path  
After the aftermath  
Bouncin back like acrobatics  
Couldn't see had cataracts  
Things were black like my cadillac  
As a matter fact  
I like to think you from the bottom  
From the things I didn't use to get when I got them  
And i'm so sorry and I cant say enough  
I really miss you and along with your touch  
Your beautiful and intelligent  
Your wanted so much  
No matter what i'm for the better  
Now you changing me up

The most beautiful thing that god has ever thought up  
He sent you hear to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up  
The most beautiful thing that god has ever thought up  
He sent you hear to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up caught up

God works in mysterious ways  
He sent you this way  
The most beautiful thing god has ever thought up  
To keep me caught up  
You got me caught up in somthing crazy  
I mean its crazy how you make me  
Espically lately baby  
I like to make a toast to the most

Beautiful thing that god has ever thought up  
He sent you hear to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up  
The most beautiful thing that god has ever thought up  
He sent you hear to keep me caught up to keep me  
caught up to keep me caught up  
Caught up caught up caught up caught up
