It's summertime and I'm Drinking on my driveway  
It's summertime and I'm Drinking on my driveway

It's summer time hey and we're drinking on my  
driveway

Can't fuck with that hard liquor, I'm back to my cerveza,  
Pacifico with no lime, a six pack in a short time  
Drinking in cantinas, or drinking in my driveway  
Either way it's ATM, a toda madre  
You wanna party, pues caile, but BYOB,  
Bring Your Own Beer ese, and bring some for me,  
Don't forget about my primos 'cause they all drink too,  
Don't forget mis amigos. And whatchu think fool?  
I know you didn't think that you could kick it for free  
And I know you didn't think that all the beer was on me,  
And if you got some green hierba, then you can bring  
that  
And if you got a gang of rucas, then they can kick back  
I'm always down for a drink out, though nothing  
nothing leaks out  
Can't handle your liquor, you gots to go, homeboy  
peace out.  
Drive careful, and keep an eye out for La Jura  
If they getcha, you never knew me I never knew ya

It's summertime and I'm Drinking on my driveway  
And we're drinkin in my drive way  
It's summertime and I'm Drinking on my driveway  
It's summertime and we're drinkin in my drive way

Borracho being macho you best a split  
Don't ask why, just go unless you want a fat lip  
Shut up don't say nothing, no one wants to hear that  
shit  
No one cares what you say, you get the fuck on with  
your fit  
I'm licked. And why you wanna fuck with my high  
Blow my mind like driving the convertable in July  
I'll drink some beers whatever kind you want to get me  
Pacifico, Corona, Sol or Dos Equis  
Let's party every day, celebrate like Cinco de Mayo

Carnitas, frijoles, arroz, Pico de Gallo, guacamole and salsa

Jose Cuervo, Cazadores, Patron, Hornitos or Sauza

Someone go get the marichis, from down the street  
Tell them not to make no plans, because they ain't gonna leave

El mariachi loco quiero bailar. Y volver volver no se van a callar

It's summertime hey, Drinking in my driveway  
Chillin by my '63

It's summertime hey, Drinking in my driveway  
Don't you wanna drink with me

It's summertime hey, Drinking in my driveway  
Chillin by my '63

It's summertime hey, Drinking in my driveway  
Won't you have a beer with me

So people drinkin Bud and others lighting it up  
And we're the ones lightin it up, to liven it up  
Hey! leave it to the chota to fuck my night up  
And you know the party's over when the Jura drive up  
Attention, everybody let me make myself clear  
You ain't gots to go home but get the fuck outta here  
And leave the beer, believe me I'll be watchin it too  
I got friends watchin' it too, so watch what you do  
I'm talkin to you, the fool that be actin a fool  
If you know what's good for you then you will stop what you do

I'm losing my cool when ese start catchin the clue  
He's destined to lose, he's walkin without one of his shoes

It happens all the time, why's it always happen to me  
Have people over for some beers and then they don't want to leave

Come back tomorrow, and don't be such a lightweight  
It summer time hey drinking in my driveway

It's summertime and I'm Drinking on my driveway

It's summertime and I'm Drinking on my driveway
