[Chorus:]

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it

[Verse 1:]

Girl you I got you and you know you got me too
So you got all of me and baby I got all of you
You always let me do anything I wanna do
Never been turned off ever since I got turned on to you
And we can hit the sack and I can lay you back
You love the way I do it do it to you just like that
Make you say ooh ooh ahh ahh with the things that I do
do to ya

[Chorus:]

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it

[Verse 2:]

Hey baby want me to do the things that you like me to
do
I'm liking it to its so exciting to do
It's like taking you on a ride to the moon
And we don't even have to leave our room boom boom
And you can lay me back and do some acrobats
I love the way you do it do it to me just like that
Make me say ooh ooh ahh ahh with the things that you
do do to muah

[Chorus:]

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it

La la la la la la [x3]

La la

[Chorus:]

Baby let me lay you down tonight
Maybe by some candle light
And we can have a pillow fight
I just can't fight it
Come on we can rock the night away
Come on baby what you say
I know how you like to play
And we both like it
