look at her look at her
shes so fine

she digs my cadillac
she loves my chevrolet
on the ground it lay orale
there aint no better way
shes from around my way
got primas from LA
love the way she looks in a brim
with a feather ray
little chula firme ruca
fuck yeah my little modern day pachuca
she like oldies blues old schools and cumbias
mariachi salsa lowrider carruchas
pelones twelve eighteen pantalones
crisp clean with the mic that raps tight
just to notice
sexy little risa
cant help but notice
cant help imagine how she looks in her
calzones hombre

look at her look at her
shes so fine with my head up high
look at her look at her
shes so fine

she respects her jefa and a jefe too
vato is an veterano
hes an old school fool
but hes cool
hes sleeved up with tattoos
hes said when i was younger
i was just like you
and i see the way you look at mi hija
i said con respeto shes a fine chicanita
she dont hit the pipa and
she dont hang with no clicka
the kind of chica that i need in my vida
por vida

oh yeah and i respect her madly
shes a beautiful woman and i want her badly
picture us lowridin in a caddy on valley
on a nice summer night on the calles of cali
sayin

look at her look at her
shes so fine with my head up high
look at her look at her
shes so fine

homie shes far out a little knockout
brought up in the neighborhood
but not a high school drop out
she got a good head on her shoulders
and a smile that'll win you over
just look at her
hey i dont think you understand me her body talks to
me says reach out and grab me
aint playin no game homes no milton bradly
all it took was one look thats it she had me

look at her look at her
shes so fine with my head up high
look at her look at her
shes so fine
