Chorus:]

You should see my chick  
She looks like one of those rap guys girl friends

You should see my chick  
You should see my chick  
You should see my chick  
You should see my chick  
You should see my chick

She is fine that is the bottom line  
Does she see me or does she see dollars signs (signs)  
I don't give a f\*\*\* she's fine I am gonna call her mine  
She is always looking good  
She's mrs hollywood  
She treats her kittie cat - just like she should  
She's off the hook  
She has got the look  
I can tell you more off the book  
And I don't mind  
She's fine can't help to stop and look  
I can't find a single flaw  
Not at all baby doll got 'em droppin jaws  
Pause  
She'll leave you all in all  
Your eyes won't believe what they saw  
She's so good she's so bad  
And I'm so glad I know that  
She's too bad  
Front and back  
She'll leave your mind blown back  
And I could just ramble on & on  
About this girl that I got a handle on  
She's all that and a bag of chips

[Chorus x2]

And she has got the softest lips  
She has got the perfect hips  
And she has got the nicets t\*\*\*  
I love what she wears and how it fits  
My baby such a tease

She looks so sexy in them juicy jeans  
Like a fatasy  
Like an image in a magazine  
She's always lookin right  
Her body's nice and tight  
Everything she does she does excacty how I like she's  
off the hook  
She's got the look  
I can tell you more off the book  
And I don't mind  
She's fine  
Go head and cop a look  
She looks like a million bucks  
Got them other women looking rediculous  
My chick is dangerous  
And just as addictive as angel dust  
You can stare  
I don't care  
Imagine my chick in underwaer  
Everybody wants to hit

Hey homie

[Chorus x2]

Yea my chick is off the chain  
Enough to drive a grown man insane  
36 24 36 she's got the perfect frame

Ohh my god you should see her body she looks like  
one of those rap guys girls friends

It never seem so quite the same  
She's mine and I am gonna clame the fame  
She likes it likes to keep me excited  
With me can something be - why fight it everyone  
always checken her out  
The one that everbody's talking about  
Everybody snap them pics

[Chorus: till end]
