[Chorus]

I know. I know. It's rough and tough. We've been
through--been through-- enough to much already but
will you stand by me?

Cuz baby you know. You know. No one goin' show you
the right way to go. I'm goin' be the right there. If you
goin' stand for me. I'll stand for you.

[Verse One]

So unexpected. The way our paths crossed through.
You see my life was ok but great. Till I met you. Ya I saw
you just sittin' there and my heart skipped a beat.
Didn't know what I should say and I couldn't move my
feet. So I thought to myself man I should step up. Open
my mouth. Stop and say wassup. When I was talkin' to
ya I was in a daze just amazed. I felt blazed cuz your
eyes had me trapped like in a maze. Didn't think it
really mattered till I finally seen you smile. Then once I
heard you laugh I knew I had to stay a while. And it's
crazy to think bout how you got me so sprung. But I
aint' sayin' I'm in love just that I'm all wrapped. Didn't
think I had a chance or that you'd fall for the bait. But it
turned out you had me caught. Shot. Hung up and
made. So if this is such a crime then tell me bout the
price to pay hey.

[Chorus]

I know. I know. It's rough and tough. We've been
through -- been through -- enough to much already but
will you stand by me?

Cuz baby you know. You know. No one goin' show you
the right way to go. I'm goin' be the right there. If you
goin' stand for me. I'll stand for you.

[Verse Two]

After that first kiss. My first summertime bliss. I've been
afraid to let go. Afraid of what I might miss. So we been
goin' 'gainst the rules and we been sneakin' around.
Cuz all your friends be sayin' we be wrong if we get
down. And ya we started off bad. People droppin'
games and givin' names---you---being busted by fools
that was so lame. It ain't the same though. We gotten

better fosho. We getting closer you know. I ain't never letting you go. We've come to far in this time. Through all our fights and lies. Towards all your friends and mine. I've bruised my love with pride and taken chances for romances all that shit turned out the same --- in flames --- But that ain't the way I'll say I see us goin' if you stay. So take a chance now. Baby be mine it's time for me to show you. How you can shine how you can shine. Hey.

[Chorus]

I know. I know. It's rough and tough. We've been through -- been through -- enough to much already but will you stand by me?

Cuz baby you know. You know. No one goin' show you the right way to go. I'm goin' be the right there. If you goin' stand for me. I'll stand for you.

[Verse Three]

It like when ever I be seein' you. We never chance to speak. But just trust the way things are. Ain't how I planned to be. So take a time here. Please chill just let me say one thing. Let me speak my peace. Awwwww here it go 1... 2... 3... Ok I know we got some doubters shit-talkers and frowners. But we can handle that we could've blocked out our surroundens'. I ain't up to let it go. Guess you don't care to let it flow. So either way I'm here to stay. Whether you get it or you don't. 'N' trust I get your heart is takin' but when will you finally see. I'm in love with who you are. He only loves who you can be. And I don't know what else to say. 'Cept that one day you will get. He was a fool a waste of time. He'll be the one that you regret. And all I'll do is stare at you the way I did when you left. Shakin' my head hopin' your heart ain't broken straight in half. So I'll just sit back and wait. Cuz ain't

Nothing I can do. Ya I'll just chill and be patient 'till you get that you my boo.

[Chorus]

I know. I know. It's rough and tough. We've been through--been through-- enough to much already but will you stand by me?

Cuz baby you know. You know. No one goin' show you the right way to go. I'm goin' be the right there. If you goin' stand for me. I'll stand for you.

[Verse Four]

I don't think you get the feelin'. The one down in my gut. The one that says to keep holdin' on. Don't let her

go wassup? See I saw heart break from the start but
didn't think it'd come this far. This whole time felt like
my heart done stop. Can't say I know who you are. See
he be yellin' and fightin' ain't trust a word that you say.
But still you cry cover a lie then turn round say it's ok. I
tried my best to make it work; I gave you all that I got.
But I guess that wasn't 'nough cuz I turn round see now
you're gone. And ya I've tried to let go. Move on—
forget your name. All my life that's how I rolled. But for
you it ain't the same. I see you every where I go. When I
here your name I freeze up. Can't stand to here bout all
your shit makes me just wanna knock him out! And you
know I know it's hard. And I know you know what's best.
But you know I treat you better. Way better then all the
rest. See cuz you been lookin' at the wrong thing. So
here. I'll give a toast. It's not about who you known
longer no it's bout who loves you most

[Chorus]

I know. I know. It's rough and tough. We've been
through -- been through -- enough to much already but
will you stand by me?

Cuz baby you know. You know. No one goin' show you
the right way to go. I'm goin' be the right there. If you
goin' stand for me. I'll stand for you.
