[Verse 1: Lil Twist]

Everytime I leave town, she want me back all the time  
All we do is face time  
She want me to make time  
I swear, I really miss her  
Wanna hold her and kiss her  
But shit, I'm getting busy. The kid is only getting bigger  
Sometimes, it's in the air. Do I do biz, or go be with her?  
Take her on the town, show her the life of the lil sister.  
(?)  
This YMCMB life is the life, it's a lil different  
Go Buy the tiffany's and minc for when you're shivering  
She thought I was some God the way this life is a giving  
Oh yeah, we just imagine. I do the same with your  
sibling  
Ha, I'm just joking. Just Kick back, zonin' and smoking  
Reminiscing on the times our love was provoked and..  
Lost. In the open. Fields, or in the ocean  
Getting drowned, maybe drenched, or even soaking  
Drained. Lose nothing but champagne and stomach  
pains  
Raging dumb arguments through texts, and childish  
games  
Oh my! I can't explain

[Hook: Lil Twist]

Seems like the same old thing  
Everytime we talk about it, it's the same old game  
Yeah you're gonna want me back. That's just same old  
same  
I just hope I don't fall for it, I'mma end up staying  
I'm just saying  
It's the same old thing  
Everytime we talk about it, it's the same old game  
Yeah you're gonna want me back. That's just same old  
same  
I just hope I don't fall for it, I'mma end up staying  
I'm just saying

[Verse 2: Lil Twist]

I hate the way you make me feel  
Now I'm faded off these cups of Hennessy

He said you gotta do it  
So I drop another dose of medicine  
Really trying not to show jealousy  
But this shit that I'm on got me speaking  
Out my mind and how I feel  
And right now, it's not that. So baby I bounce back  
To her crib, at the door she answered that  
Yeah I know about the date she had tonight, I canceled  
that  
Told her I had a couple problems, now's the time to  
handle that  
So baby, slowly take your clothes off, and where them  
candles at?  
Ha. She tried to make me slow up. I mean halt  
I'm talking hands up and all. Like shit's against the law.  
Maaan  
Like shawty what's up with that?  
She said, I told you, you was gonna want me back,  
huh?  
You're gonna need me  
Theres days you're gonna wanna see me  
You got these hoes round the world wanna be me. But  
they can't be me  
Then you up and leave me? I swear to God lil nigga,  
you mislead me  
Guess you would've been better off cheating  
And oh my, I can't explain!

[Hook: Lil Twist]

Seems like the same old thing

Yeah you're gonna want me back. That's just same old

[Closing: Lil Twist]

It's funny how the story flips sometimes, ya know?  
Just gotta deal with it, I guess  
I'm just saying. YMCMB. WildKidz
