what your man dont know wont hurt him x4
we told her like
your my little secret
and thats how we gon keep it
never let em know
never let em know
about us , about us
we can never let him know

i'll never let 'em know
nothin as you don't (you dont)
imma tell you girl you need to move on (move on)
to a real G meet me at the crib and meet the real me
forget the tv cause the things i do on tv
girl just for the tv
believe me girl i wanna see ya girl
i really really wanna see you girl
you can join me.
ill make you never wanna leave this world
why? cause this is twist world.
the good life.
sittin in the bed thinkin right to the left
when i ask mama if she a good wife
she could cook right
believe dat
i know you dudes wanna see that
why you sittin there you could see that
your girl wishin she could be that

ha, now we together til the end
and girl you could be my best friend
what your man dont know wont hurt him x4
we told her like
your my little secret
and thats how we gon keep it
never let em know
never let em know
about us , about us
we can never let him know
and we can keep it on the low (low)
i make you girl boss vososo
you so fabulous loso

now imma show you my austin powers mojo
yea i got green like my last name is rondo
ballin for a minute my last name is tumble
never fallin for nobody cause i don't fumble
now callin timeout on that last dum dum dumbo
ha, i crack jokes cause i can
and i ain't worried bout your lil man (lil man)
say this is my plan
take you over seas and tan, girl

what your man dont know wont hurt him x4
we told her like
your my little secret
and thats how we gon keep it
never let em know
never let em know
about us , about us
we can never let him know

yea, i think it's time to move on
you should dump that dude and sit on the throne
and imma treat you like the queen you are
you are the best i ever had, by for
and come & chill with a star
aye, i think i really feel you
fellin like round dude
tell him im bout to steal her
yellow & black diamonds got me feelin like a steeler
but i won't write that dude
until i all the way seal her

so he can feel real played
while we chillin at the beach
in the shade sippin on lemonade
and you miss miami day
and when you become mine
we havin a parade
but for now

what your man dont know wont hurt him x4
we told her like
your my little secret
and thats how we gon keep it
never let em know
never let em know
about us , about us
we can never let him know
