You need this in your life, yeah

I ain't gonna give you instructions  
You'll just gotta follow my lead  
Your body's making sounds like precaution  
I make â€¦ in your fantasies  
And when you wake up, girl, feeling like a train, you  
ain't gonna believe it  
And everything you need, girl you gonna receive it  
tonight  
I don't know youâ€¦ I'ma make you feel alive  
Relax and feel alright

So act like it's the last time  
The last chance for you â€¦to go there  
Just one ticket left and girl â€¦its for you baby  
The last grind, girl you won't find this feeling nowhere  
You better hurry cause the train is leaving  
All aboard, come on, â€¦ mami

I need some words that's â€¦  
I ain't gotta a reason to speak  
It's always a special occasion  
And you tell me later we meet  
And when you wake up, girl, feeling like a train, you  
ain't gonna believe it  
And everything you need, girl you gonna receive it  
tonight  
I don't know youâ€¦ I'ma make you feel alive  
Relax and come on ride

So act like it's the last time  
The last chance for you â€¦to go there  
Just one ticket left and girl â€¦ its for you baby  
The last grind, girl you won't find this feeling nowhere  
You better hurry cause the train is leaving  
All aboard, come on,  
Flow hot, punto â€¦

Yeah, she wanna ride that Wayne train  
So I'ma bag her like baggage claim  
And smoke that mari not playing, Jane

And everything is just fine  
I keep a picture of her smiling in the back of my mind  
I grab the back of her head, she throw it back like  
rewind  
I put her face in the pillow, taste it a little  
Shawty say she feel like she sitting on a missile  
I say 5,4,3,2, 1 can only be you  
Shawty say oh lord I'm cuming, I say me too  
My love has no equal, get on top, and if you ride this  
train  
Get off at your stop

it's the last time  
The last chance for you to go there  
Just one ticket left and girl its for you baby  
The last grind, girl you won't find this feeling nowhere  
You better hurry cause the train is leaving  
All aboard, come on.
