See we ain't got much in common  
So we don't do that much talking  
Sometimes it feels so awkward  
She watch me take a shower  
I asked her why she didn't join me  
She said because you didn't ask me  
I said damn I didn't think I had to  
Then she take off my towel and I take off her blouse  
I tell her that that pussy for me just incase she thought  
it was ours  
And she say cool

And if you like it I love it  
If she like it I love it

See we ain't got much in common  
So we don't do that much talking  
Coz everytime she try to tell me something  
She open up her mouth and I stick my tongue in  
She got a piercing in her vagina  
A skirt with nothing under

And she say when she don't see me  
She feel like Stevie Wonder

That's when I said  
Work, Work, Work  
If you want that purse, skirt, skirth  
She made me cum 100 times  
She made me cum 100 times

She got that Work, Work, Work  
I say you my bitch now  
I'm calling you first  
And then made her cum a 100 times  
She kinda green but I'm color blind

See we ain't got much in common  
So we don't do that much talking  
Sometimes it feels so awkward  
She watch me take a shower  
I asked her why she didn't join me

She said because you didn't ask me  
I said damn I didn't think I had to  
Then she take off my towel and I take off her blouse  
I tell her that that pussy for me just incase she thought  
it was ours  
And she say cool

Uh I like that shit  
And she bite that lip but she like that dick

Oooh I like that shit  
And she bite that lip don't fight that dick girl... girl

Fuckin wit you well Imma need another shower, Imma  
need another shower  
Can you help me take another shower  
Then we gonna make each other shower

There's steam in the air fog everywhere  
She can get her hair wet coz it's her real hair  
I be like Hell Yeah and she be like Fucking Right

Now she got my leg in the air  
I'm pulling on her hair  
And she say I can pull it coz it's her real hair  
She be like Hell Yeah, Hell yeah coz I Fuck Her Right

That's when I said  
Work, Work, Work  
If you want that purse, skirt, skirth  
She made me cum 100 times  
She made me cum 100 times

She got that Work, Work, Work  
I say you my bitch now  
I'm calling you first  
And then made her cum a 100 times  
Yeah made her cum a 100 times

Then I said

See we ain't got much in common  
So we don't do that much talking  
Sometimes it feels so awkward
