[Lil Wayne]

Um, she say "what's happening?"

I say "wassup wassup"

she ask "whats up with me"

I say "whats up with us"

I say "what's really good?"

I say "what's really good?"

I put my love down

she say "it's really good"

she sya "it's feeling good"

I say "I'm feeling better"

I make her say my name in CAPITAL LETTERS

I'm a nasty guy

dont ask me why

just ask me how and I'll show you proud

her head is gone, she's in the clouds

and when she rains, man she pours down

and I be the fella without an umbrella

Ma, you finer than a wine cellar
