intro:

wassup  
its me yupp um  
ive had plenty of episodes with various women but  
there jus this one i must tell u about

I met I her in victorias  
She was hotter then a crown victoria.  
On my block on a friday at 6 o clock yup  
I was on that young jock she made me lean and rock  
I try to tell her my name but laugh more and so  
Yea because she look like tell me something I dont  
know  
So I told her my number and i got hers also  
And of course she know if I had a girl I wouldnt bE in  
the store  
So we hooked up that morning like around 4  
And at that time I knew what she was down for  
Yupp soon as the door open - walk open out  
She was such a soldier purple heart poking out  
Her fatigues and shes never fatigue  
And wit her whatever I say she beleives  
And my girl know I got a magic show up my sleevee  
But with her I can disappear when i need

And she say,  
She dont even care about my girlfriend  
She say she juss wana do the thing with me  
And who am I to tell that girl no when this world is so  
cold why should I be? shit  
And she dont even wanna b my girlfirend  
She say she juss wanna do her thing with me  
And she gonna do her thing with me - with me

[Juelz Santanta]

Uh I met this bad btich last month  
Bonified freak we been kickin it for the past month  
Or should I say I been hittin it for the past month  
David Blaine - magic sticking it for the last month

She got that coke bottle ill shape  
Thicker than a Mcdonald's milkshake  
We dont go on dates, we have feel dates  
She lemme play on the field like a bill's game  
And she dont even like football, she juss sits home -  
But she love it when I run it in her end zone.  
She love the roll play - and put them wigs on.  
Yeah, she be gettin her Lil Kim on.  
With me - she can be as freaky as she is  
But with him - she gotta be as sneaky as she is  
And with her- I can be as kinky as im gonna be  
Upside down - handstands how I wanna be

She say - she dont even care abt her boyfriend  
She say she juss wana do the thing with a g  
And who is he to tell that girl no when this world is so  
cold why should he be? shit  
And she dont want him to be her boyfriend  
She say she juss wana do her thing with a g  
And she gonna do her thing with a g - with a g.

She dont even do this with her boyfriend  
She say she juss wana do the thing wit him and me  
And who are we to tell that girl no when this world is so  
cold why shud we be ? shit  
She say she would even do my girlfriend  
She say she juss wana do her thing be free.  
She say she juss wana do her thing be free.
