Enter the sensei, praise while I pose in the stance  
Dance or some bust ass advance so to enhance  
your appreciation for one creation  
That God didn't make a mistake to make  
Flake if you wanna, gonna, hauna, trama, go tell ya  
mama  
And your honor my actions don't believe the drama  
During the chorus found Chuck Norris and so then yo  
Chucky  
You had juice you fought Bruce and now you wanna  
duck me  
And hug me damn Vanilla Chutney  
You wanna shut me down like Chuck D  
And I will kill, act ill, thrill with skill, Bill  
And then I ass whip and I then skip  
to the loo n wax you and your crew and  
Give a liter to some damn pupil booin  
Like Uhh yo, you, sensei rock  
Act like you know a judo a chop chop chop

You know I walk down the streets of the Soho in Tokyo  
On my arm no Yoko Ono so yo  
I don't know the vibes or the lives at the rice with chives  
After the rice with chives is giving me hives  
I don't know what to say about the place  
I mean everybody here has a smile on their face  
So I'm rolling with the scenery and glad I came  
If I see some o ill shit like black rain I'm O-U-T  
Three strikes and take some Sony kid off his bike  
And be ghost and step hard like a dyke  
Yeeeeesssss Bruce Lee was the best  
But the kid also drank more wine than they did on  
Falcon Crust  
But no juice or blunt or stunt or brew  
Or tres or hate or friends or crews  
Will never stop Chubbs and draw four Uno  
Act like you know a judo a chop chop chop

Why did you leave the palace when I told you not to  
And now I have to put on the Gee and chop you  
Into pieces not Reese's I hope no one yo see this

Cause your whipping will be the topic of my thesis  
John Saxon please bow to the captain  
Before you're waxing ignore all the clapping  
That you're hearing, cause you half stepped on  
preparing  
Your style, so be gone with the smile, I'll  
Listen to your lest request, the S off your chest went  
West  
And know yo test the last cess  
That you're gonna get ya mess  
Puff the blunt then begin to fret  
You use the crane and I think I will start with the tiger  
To extract all the blood and saliva  
And puncture your structure with the art of the Sumo  
Bow and act like you know, a judo, a chop chop chop
