"Her, Him And Me"

(with Juelz Santana)

[Lil' Wayne talking:]

What's up

It's me

Yep, uhm

I've had plenty episodes with various women, but it's just this one I must tell you about...

[Verse: Lil' Wayne]

I met her in Victoria's

She was hotter than a crown victoria

On my block on a friday at 6:00 yep

I was on her yung joc

She made me lean and rock

I tried to tell her my name but laughed more so

Because she looked like tell me somethin I don't kno

So I told her my number and I got hers also

And of course she knew I had a girl, I wouldn't be in the store

So we hooked up that morning like around 4

And at that time I knew what she was down for

Yep

Soon as the door opened, war opened out

She was such a soldier, purple heart pokin out of her fatigues, and she's never fatigue

And with her, whatever I say she believes

And my girl know I got a magic show up my sleeve,

But with her, I can disappear when I need

And she say...

[Chorus:]

She don't even care about my girlfriend

She said she just wanna do the thang with me

And who am I to tell that girl no when this world is so cold, why should I be

Shit

And she don't even wanna be my girlfriend

She said she just wanna do her thang with me

And she gonna do her thang with me, with me

[Verse: Juelz Santana]

(let me tell you bout this bitch I got tho)
I met this bad bitch last month
Bonified freak, we been kickin it for the past month
Or should I say I been hittin it for the past month
David blaine, magic stickin it for the last month
She got that coke bottle ill shape
Thicker than a McDonald's milkshake
We don't go on dates, we have field days
She let me play on her field like a bill's game
And she don't even like football, she just sits home,
But she love it when I run it in her inzone
She love to role play and put them wigs on
Yeah, she be gettin her lil' kim on
With me, she can be as freaky as she is, but with him
she gotta be as sneaky as she is
And with her, I can be as kinky as I'm gonna be
Upside down, handstand's how I wanna be
She said...

[Chorus:]

She don't even care about her boyfriend
She said she just wanna do the thang with a g
And who is he to tell that girl no when this world is so
cold, why should he be
Shit
And she don't want him to be her boyfriend
She said she just wanna do her thang with a g
And she gonna do her thang with a g, with a g

[Verse: Lil' Wayne]

Chillin by Elz
And we smoked a hundred L
We spoke about gals
We joked about tales
No homo
But I meant like a storytale
Ya dig

[Juelz Santana]

Let me tell you bout this bitch name Loreal
Light skin, long hair
I call her slaughter mouth
Thick and juicy like steak meat, porterhouse
And bein freaky is somethin she knows all about
She keep askin me if we can put a porno out

[Lil' Wayne]

I know that bitch too
I say we give her a call
And see what that bitch do

[Juelz Santana]

You got that bitch number

Well call that bitch through
I got the rubbers
Got the dutches
Hell yeah, we can jump her
Ya dig

[Lil' Wayne talking:]

Yeah, hello
Hey mama, wat up?
How you?
Yeah this weezy
Hey listen, I got Elz right here with me
We bout to come pick you up
That's cool?
Cool, we good
Yessir

[Chorus:]

She don't even do this with her boyfriend
She said she just wanna do the thang with him and me
And who are we to tell that girl no when this world is so
cold, why should we be
Shit
She said she would even do my girlfriend
She said she just wanna do her thang, be free
She said she just wanna do her thang, be free
Her, him, and me
