Weezy baby
I can make her bodt talk to me
I can make that thing jump off of her and walk to me
baby girl youre looking like a theme park to me
I mean your lookin at stars to dark to me
I feel like im on mars and your apart from me
Leonardo makin love is an art for me
new gallardo kind of small but it works for me

baby doll im at your neck like a shirt button
what"chu trying to do, twerk something
I cane make you feel when it hurt honey
left you alone, the nerve of him
shhhh...I think i heard somethin!!
