25 pictures on the wall
Let my face be on them all
At my feet them bitches crawl
Catch me B don't let me fall
All aboard we taking off
Where we going? we going off
All them hoe's we shakin' off
We just give 'em all
Uh life is too short to take my time
Life is too short to make my mind
Life is too short to take my time
Life is too short to make my mind
My barrel is looking at you
My infrared detect your every move
I choose whoever I choose yeeah
We gonna party likes 2099
Yeah
We gonna party likes it's 2099
Yeah
Life is too short to take ya time
Life is too short to make ya mind
Life is too short to take ya time
Life is too short
Life is too short to take ya time
Life is too short to make ya mind
Life is too short to take ya time
Life is too short to make ya mind
Yeeeahhhh, yeah
Just wipe your tears away
Throw your fears away
Wipe your tears away
Throw your fears away
Wipe your tears away
Throw your fears away
Wipe your tears away
We going thisa way
We going thisa way
We going thisa way
We going thisa way
