Young money in charge
Yes its lil wayne but the money is in large
Priorities young money in god
Now they wanna know how I be getting money on bars
Cause I be getting paid like out of this world
Hip hop is a bitch and im proud of this girl
But when the sharks come see how the fish curl
This is my game you gonna need a referral
I know more about trees then a squirrel
We don't talk much but that heat so thermal
Brand new mark check a peek go thermal
Goin outside of the gear external
Im so fly yall still at the terminal
Ill put you in the dirt just because I see the worm in you
Dirty south bitch, admire and acknowledge it
And respect my conglomerate
