[Intro]

Yeah

Aye blackstar (Weezy, weezy, weezy baby)

DK

Yeah

It's another one

It's official

Girl what you trippin for?

[Verse 1]

He knew from the start

He had me all sprung

I had no choice to touch him

He had that edge

The way he worked me

He had me open

I could tell he was trouble

My girls told me that he was not the one

Plus my mama don't trust him

When he touched me

All the warnings, they just blew past me

I know that he is trouble

[Hook]

Gotta find a way to get through this

This dude is killing me

Got me caught trapped up in the game

No, there's no way to free me

And I'm playing the fool because I know he's no good

[Chorus]

That's why it's just a phase

That that I'm goin through

A shame

That he got me breaking all my rules

Got me tripping

Don't know what to do

They say it's just a phase

That that I'm goin through

A shame

That he got me breaking all my rules

Got me tripping

Don't know what to do
They say it's just a phase

[Verse 2]

Everytime li think
I got strength to leave
i pack my bags
(tell my girl) come get me
he's on his knees
makin promises that he can't keep
and then i believe him
i thought i was stronger than this
a southern girl
with southern dreams
but he could see
thought he knew me

[Hook]

Gotta find a way to get through this
This dude is killing me
Got me caught trapped up in the game
No, there's no way to free me
And I'm playing the fool because I know he's no good

[Chorus]

That's why it's just a phase

That that I'm goin through
A shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase
That that I'm goin through
A shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase

[Verse 3-(Lil Wayne)]

Uh-uh I'ma lil bit more than that
Shawty I'm so hot ima make u bring yo oven back
And I'm fly call me Firebird Pontiac
Dark, rich, and strong like cognac
What's yo zodiac, see me I be a libra
And I do everything twice so I eat her, eat her
I need her, need her yeah its jacida's son
With a tongue like a 9 milimeter gun
And we don't need a gun, because we keep peace

Tylenol p.m. sex, now she sleep
Shhhhhhh, see I just put her to bed, to bed, to bed
Now I'ma rock yo body, turn you ova, smell me like
some burnin' rollers
In the mornin' turn you ova, while you yawning bend
you ova
Feel like heaven, I know baby
See this just I know baby
See he could be yo phase, but I know he can't phase
me

[Hook]

Gotta find a way to get through this
This dude is killing me
Got me caught trapped up in the game
No, there's no way to free me
And I'm playing the fool because I know he's no good

[Bridge]

I have no clue what she is saying

[Chorus]

That's why it's just a phase
That that I'm goin through
A shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase
That that I'm goin through
A shame
That he got me breaking all my rules
Got me tripping
Don't know what to do
They say it's just a phase
