[Bridge - Lil Wayne]

So you didnt get drafted by the NBA, but you got  
drafted to defend your U.S.A  
Now you got war on your mind, put you on front line  
and you will die, die, the American way

[Verse 1 - Gudda Gudda]

So I woke up at the crack of dawn, a lot going through  
my mind while I stretch and yawn  
Its a love-hate thing, but my heart is torn, man, let me  
just speak about whats going on  
Hey, Dear Mr. President, why you got our troops in the  
war and they fighting over shit thats irrelevant  
While the crime rates spread like an infection, Im trying  
to duck jail and a lethal injection

[Chorus - Lil Wayne]

Love, hate, size, race, grime, grace, lip injection, lethal  
injection  
Breast reduction, police corruption, your assumption,  
economical destruction  
Breast reduction, police corruption, your assumption,  
economical destruction  
Love, hate, size, race, grime, grace, crime rate, lip  
injection, lethal injection  
Lip injection, lethal injection, breast reduction, police  
corruption  
Your assumption, economical destruction, breast  
reduction  
Police corruption, your assumption, economical  
destruction

[Lil Wayne Scream]

[Verse 2 - Lil Wayne]

What is your fucking problem, Im from the fucking  
bottom  
I got a bunch of problems, and cant nothing solve them  
My room is full of demons, I aint afraid of them  
I hear them witches screaming, I raise a blade to them

[Chorus - Lil Wayne]

Love, hate, size, race, grime, grace, lip injection, lethal injection, lip injection  
Lethal injection, your assumption, economical destruction, breast reduction, police corruption  
Love, hate, size, race, grime, grace, crime rate, lip injection, lethal injection  
Lip injection, lethal injection, breast reduction, police corruption, your assumption  
Economical destruction, breast reduction, police corruption, your assumption, economical destruction

[Bridge - Lil Wayne]

So you didnt get drafted by the NBA, but you got drafted to defend your U.S.A  
Now you got war on your mind, put you on front line and you will die, die, the American way

[Verse 3 - Lil Wayne]

Question, what the fuck is you go do, when that new world come for you  
When that new world come for you, revolution is never the solution  
Prostitution, drug distribution, war contribution, all for the love of the constitution  
Yeah

[Chorus - Lil Wayne & Gudda Gudda]

Love, hate, size, race, grime, grace, lip injection, lethal injection  
While the crime rates spread like an infection, Im trying to duck jail and a lethal injection  
Love, hate, size, race, grime, grace, crime rate, lip injection, lethal injection  
Lip injection, lethal injection, breast reduction, police corruption, your assumption  
Economical destruction, breast reduction, police corruption, your assumption, economical destruction
