i said good morning america
goodnight to the bullshit,

Haha. So even if I miss with the first one. I got 15 more
to get the work done.
I smoke L's til every part of the perp done. Boss man,
tell them boys I had a dudes, murked son. damit id
hate to get valid?
i'd rather be fucking on a south American island, bad
chick, grindin on my dick for first count. My great
American scream machine got a shout, fuck niggas in
the street, I don't know the count, and when you getting
money while I give a fuck about them.
See back in the day I used to really give a fuck about
what they say.
Now I can give a fuck about what they say.
Cause im fucking every day and everydayâ€¦!
